To Whom It May Concern:

I've had the opportunity to work directly with Kaloyan Tosev over the last 6 months as he assisted a community of over 30,000 individuals with valuable market analysis.

For context, I have over a decade of experience working in the financial services industry with my current role as a Financial Planner for a $2bn RIA located in St. Louis, Missouri, USA. Previously, I served as Vice President at State Street Global Advisors and Goldman Sachs with my primary duties and responsibilities to advise large financial institutions located in the Midwest on global financial markets and how best to position their client assets.

I have a very good working knowledge of spotting talented individuals who are able to digest and apply information in a thoughtful manner and I strongly recommend Kaloyan to anyone looking for a bright and hard working individual with a passion for capital markets.

Kaloyan has consistently demonstrated a deep understanding of market dynamics, charting, and technical indicators. He thoughtfully applied his analysis of crypto markets to our community on a regular cadence that was extremely well received. Furthermore, he showed an eagerness for collaboration, seeking to improve his analysis and welcomed constructive feedback. His passion for the financial markets and willingness to assist others in navigating the complexities of crypto and stock investments makes him an invaluable asset to any team.

I always leave my conversations with Kaloyan more impressed than the last time we spoke as he is mature beyond his years and I know that the organization that is fortunate enough to have him will be well rewarded.

Regards,

Joshua E. Reesman, CFF
Holistic Financial Planner
Planning Team Leader
